INTRODUCTION

This report gives final figures on the total labour force and employment status of the population 15 years of age and over, by sex as reported at the June 1, 1961 Census. These data are shown for Canada and the provinces, census metropolitan and other major urban areas, incorporated urban centres of 1,000 population and over and counties and census divisions. Further details by age and sex are shown for Canada and the provinces and the census metropolitan areas of cities of 100,000 population and over.

The 1961 Census labour force includes all persons, 15 years of age and over, who were reported as having a job of any kind, either part-time or full-time (even if they were not at work) or were reported as looking for work, during the week prior to enumeration. In urban localities the major portion of the enumeration extended over the first two weeks in June, and in rural areas over the first three weeks.

Inmates in institutions at the date of the Census, even though employed in some productive work within the institution, were not included in the labour force population. Unlike the 1951 Census, however, Indians on reserves are included, rather than treated as a special group.

Employment status.—The questions used to determine employment status in the 1961 Census were as follows:

Question

16. Did you have a job of any kind last week?
(Even if not at work, or part-time)
- Yes ☐ No ☐
17. Did you look for work last week?
- Yes ☐ No ☐
18. Did you have a job at any time in the past 12 months?
- Yes ☐ No ☐
19. Number of hours usually worked each week?
- | | | | | |
|--------------------------|--------------------------|--------------------------|--------------------------|--------------------------|
| 1-19 | 20-29 | 30-34 | 35-39 | 40 |
| <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| 41-44 | 45-49 | 50+ | Never worked | |
| <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | |

Persons answering "Yes" to Question 16 are classified as "With jobs" in this report; they were not asked Questions 17 and 18. Those answering "Yes" to Question 17 form the "Looking for work" group. If they also answered "Never worked" to Question 19 they are shown separately under the heading "Persons seeking work for the first time".

Persons answering "No" to both Questions 16 and 17 constitute the "Not in the labour force" category. These persons were asked Question 18 and those answering "Yes" are classified as "With a job during the past year" shown as part of the "Not in the labour force" category.

Comparability with Labour Force Survey.—The figures in this Census report are not directly comparable with the estimates of employed and unemployed from the June 1961 Labour Force Survey. There were differences in timing of enumeration and in coverage. Whereas the Census includes members of the armed services, Indians on reserves and persons living in the Yukon and Northwest Territories, the Survey does not. Moreover, the 1961 Census excluded 14-year-olds from the labour force, while the Survey included them.

Comparability with the Survey appears to be affected to an important degree by differences in the form of questions used. Further, it is more difficult in a general census than in a specially designed survey to obtain accurate information about persons whose job or labour force attachment is tenuous or uncertain. One important consequence of these factors was that substantial numbers of individuals who should have been enumerated as "Looking for work" were apparently enumerated in the Census as "Not in the labour force".

Comparability with earlier censuses.—Censuses prior to 1951 used the "gainfully occupied" concept. In the 1951 and 1961 Censuses, the "labour force" concept was used, although there were differences in the wording of questions and some minor differences in coverage. As noted above, the 1961 Census included in the labour force Indians on reserves and excluded 14-year-olds; the 1951 Census excluded the former and included the latter.

Wage-earners.—Persons who worked for others for wages, salary, tips or piece rates or who worked for others in non-family enterprises for payment in kind. Salesmen on commission were to be reported as wage-earners if they worked for only one company. Data on the employment status of wage-earners are not available for other major urban areas, incorporated urban centres of 1,000 population and over and counties and census divisions.

Le présent rapport donne, par sexe et d'après le recensement du 1er juin 1961, les chiffres définitifs de l'effectif total de la main-d'œuvre et de la situation de la population âgée de 15 ans et plus dans l'emploi. Les chiffres sont ceux du Canada et des provinces, des zones métropolitaines de recensement et autres grandes agglomérations urbaines, des centres constitués de 1,000 habitants et plus ainsi que des comtés et des divisions de recensement. Le rapport contient aussi d'autres détails par âge et sexe pour le Canada, les provinces et les zones métropolitaines de recensement des cités de 100,000 habitants et plus.

La main-d'œuvre recensée en 1961 comprend toutes les personnes âgées de 15 ans et plus, inscrites comme ayant un emploi quelconque, à temps partiel ou de plein temps (même si elles n'étaient pas au travail) ou comme ayant cherché du travail la semaine précédant le recensement. Dans les localités urbaines, le dénombrement a été fait en majeure partie durant les deux premières semaines de juin, et, dans les régions rurales, durant les trois premières.

Lors du recensement, les pensionnaires des institutions, même s'ils étaient employés à quelque travail productif dans l'institution, n'étaient pas censés faire partie de la main-d'œuvre. Contrairement au recensement de 1951, où ils faisaient partie d'un groupe spécial, les Indiens des réserves ont été comptés parmi la main-d'œuvre.

État d'emploi.—Les questions du recensement de 1961 devant déterminer l'état d'emploi étaient les suivantes:

Question

16. Aviez-vous un emploi quelconque la semaine dernière?
(Même si non au travail ou à temps partiel)
- Oui ☐ Non ☐
17. Avez-vous cherché du travail la semaine dernière?
- Oui ☐ Non ☐
18. Avez-vous eu un emploi au cours des 12 derniers mois?
- Oui ☐ Non ☐
19. Nombre habituel d'heures de travail par semaine?
- | | | | | |
|--------------------------|--------------------------|--------------------------|--------------------------|--------------------------|
| 1-19 | 20-29 | 30-34 | 35-39 | 40 |
| <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| 41-44 | 45-49 | 50+ | N'a jamais travaillé | |
| <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | |

Les personnes qui ont répondu "Oui" à la question 16 sont classées dans le présent rapport, comme "Ayant un emploi"; elles n'eurent pas à répondre aux questions 17 et 18. Celles qui ont répondu "Oui" à la question 17 forment le groupe des personnes "En quête de travail". Si elles ont aussi répondu "N'a jamais travaillé" à la question 19, elles sont indiquées distinctement sous la rubrique "Personnes en quête de travail pour la première fois".

Les personnes qui ont répondu "Non" aux deux questions 16 et 17 sont les "Personnes ne faisant pas partie de la main-d'œuvre". Elles ont dû répondre à la question 18 et celles qui ont répondu "Oui" sont classées comme "Ayant un emploi l'an passé", et indiquées comme faisant partie de la catégorie "Personnes ne faisant pas partie de la main-d'œuvre".

Comparaison avec le Relevé de la main-d'œuvre.—Les chiffres contenus dans le présent rapport du recensement ne sont pas rigoureusement comparables aux estimations relatives aux personnes employées et aux chômeurs tirées du Relevé de la main-d'œuvre de juin 1961. Il y a des différences quant au moment du dénombrement et quant à l'universalité de l'enquête. Le recensement englobe les membres des forces armées, les Indiens des réserves et les personnes habitant au Yukon et dans les Territoires du Nord-Ouest tandis que le Relevé ne le fait pas. De plus, les personnes âgées de 14 ans ont été exclues de la main-d'œuvre lors du recensement de 1961 tandis que le Relevé en tient compte.

Les différences entre les questions employées ont influé sensiblement, en apparence, sur la comparaison. De plus, il est plus difficile dans un recensement général que dans une enquête spéciale d'obtenir des renseignements exacts au sujet des personnes dont l'emploi ou la participation à la main-d'œuvre est précaire ou incertain. Comme conséquence importante de ces facteurs, un nombre élevé de personnes qui auraient dû être dénombrées comme étant "En quête de travail" l'ont été apparemment comme "Ne faisant pas partie de la main-d'œuvre" au recensement.

Comparaison avec les recensements antérieurs.—Les recensements antérieurs à 1951 employaient le concept de "population active". Aux recensements de 1951 et de 1961, celui de la "main-d'œuvre" a été employé bien que l'énoncé des questions et le champ d'observation aient été quelque peu différents. La main-d'œuvre recensée en 1961, comme on l'a vu ci-dessus, comprenait les Indiens des réserves et excluait les personnes âgées de 14 ans; celui de 1951 excluait les premières et incluait les dernières.

Salariés.—Personnes qui travaillent pour autrui contre salaire, traitement, pourboires ou rémunération à la pièce ou pour autrui dans une entreprise non familiale contre rémunération en nature. Les vendeurs à commission doivent être inscrits comme salariés s'ils ne travaillent que pour une seule compagnie. Les chiffres relatifs à l'état d'emploi des salariés sont indisponibles pour les autres grandes agglomérations urbaines, les centres urbains constitués de 1,000 habitants et plus et les comtés et divisions de recensement.
